US**

Please provide a phone number: **785-252-4000**

Please provide your email address **marlenajahn@hbcomm.net**

I am providing response comments related to the following application (choose one): **HBCable - Kanopolis**

I am responding to concerns this project: **Proposes to serve an area that already has service**

Please provide your response to the public comments received in the text box below.

In response to Challenge 29:

H&B Cable inadvertently reflected an overlap of a small portion of Home Telephone Company's service area and would be more than happy to remove the overlap to move this application forward. Any wireless coverage overlap within Home's service territory is incidental and unavoidable due to the nature of wireless propagation, as it is not H&B's objective to provide service or use grant monies or facilities to overbuild another provider. H&B intentionally did not propose, nor does it intend, to attain any subscribers already served by Home Telephone's existing facilities. H&B has submitted a revised wireless propagation map which completely removes the following census blocks: 200530866002408, 002411, and 002588.

The listing of the census blocks within Home Telephone do not impact the overall grant cost due to the nature of the wireless product. No additional costs were incurred, nor will any saving be reflected by the inclusion or exclusion of the blocks within Home Telephone's service territory.

Please provide supporting documents relative to your comments. Please submit multiple files as a ZIP file.
