Dennis Cook

Which of the following best describes you? (Check all that apply)

- Resident in proposed service area
- Business leader in proposed service area

I am providing comments related to the following application (choose one):

WTC Communications - SW Pottawatomie County

I am submitting comments to express

Support for a project

Please provide your comments in the text box below.

I am the Director for the Aggieville Business Association, located in Manhattan. Our district and my office are using WTC Internet to facilitate our ongoing businesses, and we are very satisfied with the results. Unfortunately, I live in the Cedar Springs Ranch area of SW Pottawatomie County and we don't have any reliable internet service. I need to stay in contact with my work through my phone and laptop and all hours of the day, but using a mobile hotspot is totally unreliable. A supported system would be extremely advantageous to me and all my neighbors. We have other business owners, foster families and retirees that sometimes have to load up and go to town to have access to internet.

Please provide supporting documentation to support your comments. Concerns related to overbuilds should include explicit data such as Census block and address specific data. Submit multiple files as a single ZIP file.

Strongly support high speed cable in our area. Please pay the cable company to bring us up to 21st century standards. We are 5 miles outside of a university town but our cable company can't seem to find the investment capital to provide service.

Please provide supporting documentation to support your comments. Concerns related to overbuilds should include explicit data such as Census block and address specific data. Submit multiple files as a single ZIP file.

The internet in our area is currently limited to satellite internet or via Kansas Broadband. Due to everything these days requiring internet connection, working from home, and even now just regular TV we need higher speeds and reliable internet connections.

Please provide supporting documentation to support your comments. Concerns related to overbuilds should include explicit data such as Census block and address specific data. Submit multiple files as a single ZIP file.

My neighborhood is severely underserved. Moving here 2 years ago, from an Internet availability point of view, felt like going back 30 years to a dial up modem on a phone line. I just ran a speed test of the only service available to my home: ATT DSL. 15.13Mbps down/0.90Mbps up. It's terrible! Please approve this project!

There is a project to build a new Kansas Department of Wildlife & Parks office building at Pottawatomie State Fishing Lake #2 within the next year. Upon completion, I will be moving my office duty location to this new office building. At this time, I do not believe there is an option of good internet service for the new building site. Furthermore, I believe a WTC expansion in this area would provide a valuable internet service to KDWP at the new building.

Please provide supporting documentation to support your comments. Concerns related to overbuilds should include explicit data such as Census block and address specific data. Submit multiple files as a single ZIP file.
